## Why have a Peel?

In this treatment, a chemical solution is applied to the skin, which removes old and dead skin cells. The new revealed skin is usually smoother and less wrinkled than the old skin. Chemical **peels** can be done on the face, neck, or hands.

Winter is when the weather is certainly chillier and the sun is not as strong. This is a very good time for a peel. In Winter there is less moisture in the air which is a cause for dry skin, as well as low temperatures and the cold winter wind. Rosacea and eczema can also flare up in the Winter due to dry skin. A chemical peel can address these problems with exfoliation and hydration. Capricious Spa will help you address these concerns with a discount in December on our **Smart Peel**. Usually \$110.00, we'll be offering the treatment for **\$89.99**.

---

**S**ign up for a **6 month membership** and receive our **\$95 custom facial** for just **\$79.99** plus **two (2)** \$15.00 add-ons (or one \$30 add-on) and 15% off Capricious Skin Care retail products. It's a 6 month savings of over \$270 or annual savings of over \$540 !

Capricious Spa is no longer offering promotions with Spa Finder, Spa Wish or Spa Wellness. Please feel free to contact us about our current Capricious Spa specials. We are also only obligated to provide service or product for purchases since July 2017.

Groupon Deals: Federal gift card law indicates that the amount paid never expires, but the promotion itself expires 6 months after purchase. After expiration the amount paid can be used towards a full price service. For example, on an expired \$60 Groupon Deal Custom Facial, you can still use the money toward a full price Custom Facial at \$95. Your facial cost would be \$35.
